

School Area Boundaries

Below is a general guideline. If in doubt, or important to your client, call the district office – 871.3193 (Deb Ginesta). She knows everything about the school district boundaries.

1. These boundaries are likely to continually evolve and will change
2. To determine which school district go to the assessor page:
 - RE1 = Hayden
 - RE2 = Steamboat Springs
 - RE3 = South Routt
3. Steamboat Springs Elementary Schools:
 - If either school reaches its maximum number of kids for any grade level, a new enrollee will go to the other elementary school regardless of boundary. They can reapply for their boundary school the following year.
4. The boundaries between Soda Creek and Strawberry Park can be very close in some areas, so these are general guidelines:

• Vista Ridge	

Milner goes to Hayden even though a bus still goes out there. There are a few kids who are grandfathered in to RE2.
